### **Sign One - Choosy Love**

Cats are selective with whom they show some love. When a cat is your friend, you know that you're special to them.

### **Sign Two - Simple needs**

It doesn't take much to make a cat happy. All they need is food, affection and a quiet place to take a nap. Purr, purr.

### **Sign Three - In Or Out Dilemma**

Cats are lazy when it comes to leaving the house. They get so comfortable that they don't want to leave the sofa!

### **Sign Four - Proudly Independent**

Cats don't like social pressure. Kitty doesn't want to socialise all the time or follow along with just any random plan.

### **Sign Five - Mysteriously Magical**

Cats like to have a secret private life of their own. No, you're not invited!
